

## Assignment Purpose

The purpose of this assignment is to reflect on the responsibilities of a software developer and to gain familiarity with the ACM code of ethics.

## Mandatory Instructions

1. Read the provided article “12 Ethical Dilemmas for Developers.”
2. Look up and read the ACM Code of Ethics
3. Reflect on what you have read, and answer questions provided in the grade sheet.

## What to turn in?

1. Upload your grade sheet to Canvas before the due date and time.
